

A History of Altrincham and Bowdon: With; An Account of the Barony (Classic Reprint)

In accordance with ancient custom, the author indites a few lines by way of preface. This work has been the outcome of that little leisure which falls to the lot of those connected with the press, and as such has occupied him for a period of over three years. His hearty acknowledgments are due to many gentlemen for the perusal of valuable books and documents, and also for the kindly encouragement he has received during the compilation of its pages. His earnest endeavour has been to make everything so plain that even he who runs may read. There has been no display of learning, and there are no footnotes or other aids to bewilderment and confusion. It is an honest attempt to set forth the facts connected with a district singularly rich in historical associations. In this respect it appeals to a much wider constituency than that for which it is intended. (Typographical errors above are due to OCR software and dont occur in the book.)
