

Postindian Conversations is the first collection of in-depth interviews with Gerald Vizenor, one of the most powerful and provocative voices in the Native world today. These lively conversations with the preeminent novelist and cultural critic reveal much about the man, his literary creations, and his critical perspectives on important issues affecting Native peoples at the beginning of the twenty-first century. The book also casts new light on his sometimes controversial ideas about contemporary Native identity, politics, economics, scholarship, and literature.
