

Pearson MediaShare -- Standalone Access Card

Pearson MediaShare enhances your online and face-to-face classroom experience. This comprehensive file upload tool allows students to post speeches, outlines, visual aids, video assignments, role plays, group projects, and more in a variety of formats. Uploaded files are available for viewing, commenting, and grading by instructors and class members in face-to-face and online course settings. Integrated video capture functionality allows students to record video directly from a webcam and allows instructors to record videos, in class or in a lab, and attach them directly to a specific student and/or assignment. There is also a free Mediashare iPhone and iPad app. Our MediaShare app can be downloaded via iTunes by any student who has purchased access to MediaShare or MyCommunicationLab.
